CAO GROUP, INC.

Plaintiff,

v.

THE INDIVIDUALS, CORPORATIONS,
LIMITED LIABILITY COMPANIES,
PARTNERSHIPS, and
UNINCORPORATED ASSOCIATES
IDENTIFIED ON SCHEDULE “A,”

Defendants.

Case No. 1:24-cv-1211

JURY TRIAL DEMANDED

VERIFIED COMPLAINT

Plaintiff CAO Group, Inc. (“Plaintiff”) hereby brings the present action against all Individuals, Corporations, Limited Liability Companies, Partnerships, and Unincorporated Associates Identified on Schedule A (collectively, “Defendants”), attached hereto, as follows:

I. JURISDICTION AND VENUE

1. This Court has original subject matter jurisdiction over Plaintiff’s claims pursuant to the provisions of the Patent Act, 35 U.S.C. § 1 *et seq.*, 28 U.S.C. § 1338(a)-(b) (exclusive patent claim jurisdiction), and 28 U.S.C. § 1331 (original federal question jurisdiction).

2. Venue is proper in this Court pursuant to 28 U.S.C. § 1391, and this Court may properly exercise personal jurisdiction over Defendants because Defendants structure their business activities so as to target consumers in the United States, including Illinois, through at least the fully interactive e-commerce stores operating under the aliases identified on Schedule A attached hereto (the “Seller Aliases”). Specifically, Defendants have targeted sales to Illinois residents by setting up and operating e-commerce stores that target United States consumers, offer

shipping to the United States, including Illinois, accept payment in U.S. dollars and, on information and belief, sell products which infringe Plaintiff's patented inventions, as described below, (collectively, the "Unauthorized Products") to residents of Illinois. Each of the Defendants is committing tortious acts in Illinois, is engaging in interstate commerce, and has wrongfully caused Plaintiff substantial injury in the state of Illinois.

II. INTRODUCTION

3. Plaintiff filed this case to prevent e-commerce store operators who infringe upon Plaintiff's patented invention from further selling and/or offering for sale Unauthorized Products. Defendants create e-commerce stores under one or more Seller Aliases and then advertise, offer for sale, and/or sell Unauthorized Products to unknowing consumers. E-commerce stores operating under the Seller Aliases share identifiers, such as design elements and similarities of the Unauthorized Products offered for sale, establishing that a logical relationship exists between them, and that Defendants' infringing operation arises out of the same transaction, occurrence, or series of transactions or occurrences. Defendants take advantage of a set of circumstances, including the anonymity and mass reach afforded by the Internet and the cover afforded by international borders, to violate Plaintiff's intellectual property rights with impunity. Defendants attempt to avoid liability by operating under one or more Seller Aliases to conceal their identities, locations, and the full scope and interworking of their infringing operation. Plaintiff is forced to file this action to combat Defendants' infringing of its patented invention, as well as to protect consumers from purchasing Unauthorized Products over the internet. Plaintiff has been, and continues to be, irreparably damaged through loss of market share and erosion of Plaintiff's patent rights because of Defendants' actions and therefore seeks injunctive and monetary relief.

III. THE PARTIES

4. Plaintiff, CAO Group, Inc., is a Utah corporation with its principal place of business at 4628 West Skyhawk Drive, West Jordan, Utah 84084 and is the owner of the patents asserted in this action.

(collectively, "Plaintiff's Patents"). True and correct copies of Plaintiff's Patents are attached hereto as **Exhibit 1**.

6. The [REDACTED] Patent issued on [REDACTED]. See Exhibit 1.

7. The [REDACTED] Patent was and is valid and enforceable at all times relevant to this action and is entitled to a presumption of validity under 35. U.S.C. § 282.

8. Claim 1 of the [REDACTED] Patent reads

The image consists of a series of horizontal black bars of varying lengths, arranged vertically. The bars are solid black rectangles with no internal texture or shading. They are positioned against a plain white background. The lengths of the bars decrease from top to bottom, creating a visual effect of descending steps or a staircase.

See Exhibit 1.

10. The [REDACTED] Patent was and is valid and enforceable at all times relevant to this action and is entitled to a presumption of validity under 35. U.S.C. § 282.

11. Claim 1 of the [REDACTED] Patent reads

ANSWER The answer is (A) $\frac{1}{2} \ln(1 + x^2)$.

See Exhibit 1.

12. The [REDACTED] Patent issued on [REDACTED]. See **Exhibit 1**.
13. The [REDACTED] Patent was and is valid and enforceable at all times relevant to this action and is entitled to a presumption of validity under 35. U.S.C. § 282.

ANSWER The answer is (A) $\frac{1}{2} \ln(1 + x^2)$.

ANSWER The answer is (A). The first two digits of the number 1234567890 are 12.

ANSWER The answer is 1000. The first two digits of the number are 10, so the answer is 1000.

ANSWER The answer is (A) $\frac{1}{2}$.
The area of the shaded region is $\frac{1}{2} \times 10 \times 10 = 50$. The area of the entire rectangle is $10 \times 10 = 100$. Thus, the fraction of the rectangle's area that is shaded is $\frac{50}{100} = \frac{1}{2}$.

[REDACTED] S E 123/1

15. Plaintiff researches, develops, and patents ground-breaking inventions and advancements in the fields of dentistry, oral hygiene, and LED, with more than 190 issued and published patent applications worldwide. Among these inventions is [REDACTED]

[REDACTED]
[REDACTED] This [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED] has led to

Plaintiff filing for and having been issued numerous patents, including Plaintiff's Patents that are at issue in this matter.

16. Plaintiff developed a product line which embodies Plaintiff's Patents, under the name [REDACTED] (collectively, "Plaintiff's Products"), exclusively through its website (www.caogroup.com) and through its authorized distributor Henry Schein. Plaintiff's aforementioned product line includes [REDACTED] for both in-home use by patients and for use within dental offices.

17. Plaintiff provides notice of its patent rights directly on the packaging of all of Plaintiff's Products. True and correct copies of the packaging drawings for Plaintiff's Products, and annotated copies of the packaging drawings for Plaintiff's Products with the notice of patent rights marked, are attached hereto as **Exhibit 2**.

18. Plaintiff lists each of Plaintiff's Patents on the packaging of all of Plaintiff's Products and displays the URL to Plaintiff's website (www.caogroup.com/patents), where Plaintiff displays a list of its products, and which patents those products embody. Plaintiff's Products are listed as embodying Plaintiff's Patents. *See Exhibit 2* and Figures 1, 2, 3, and 4.

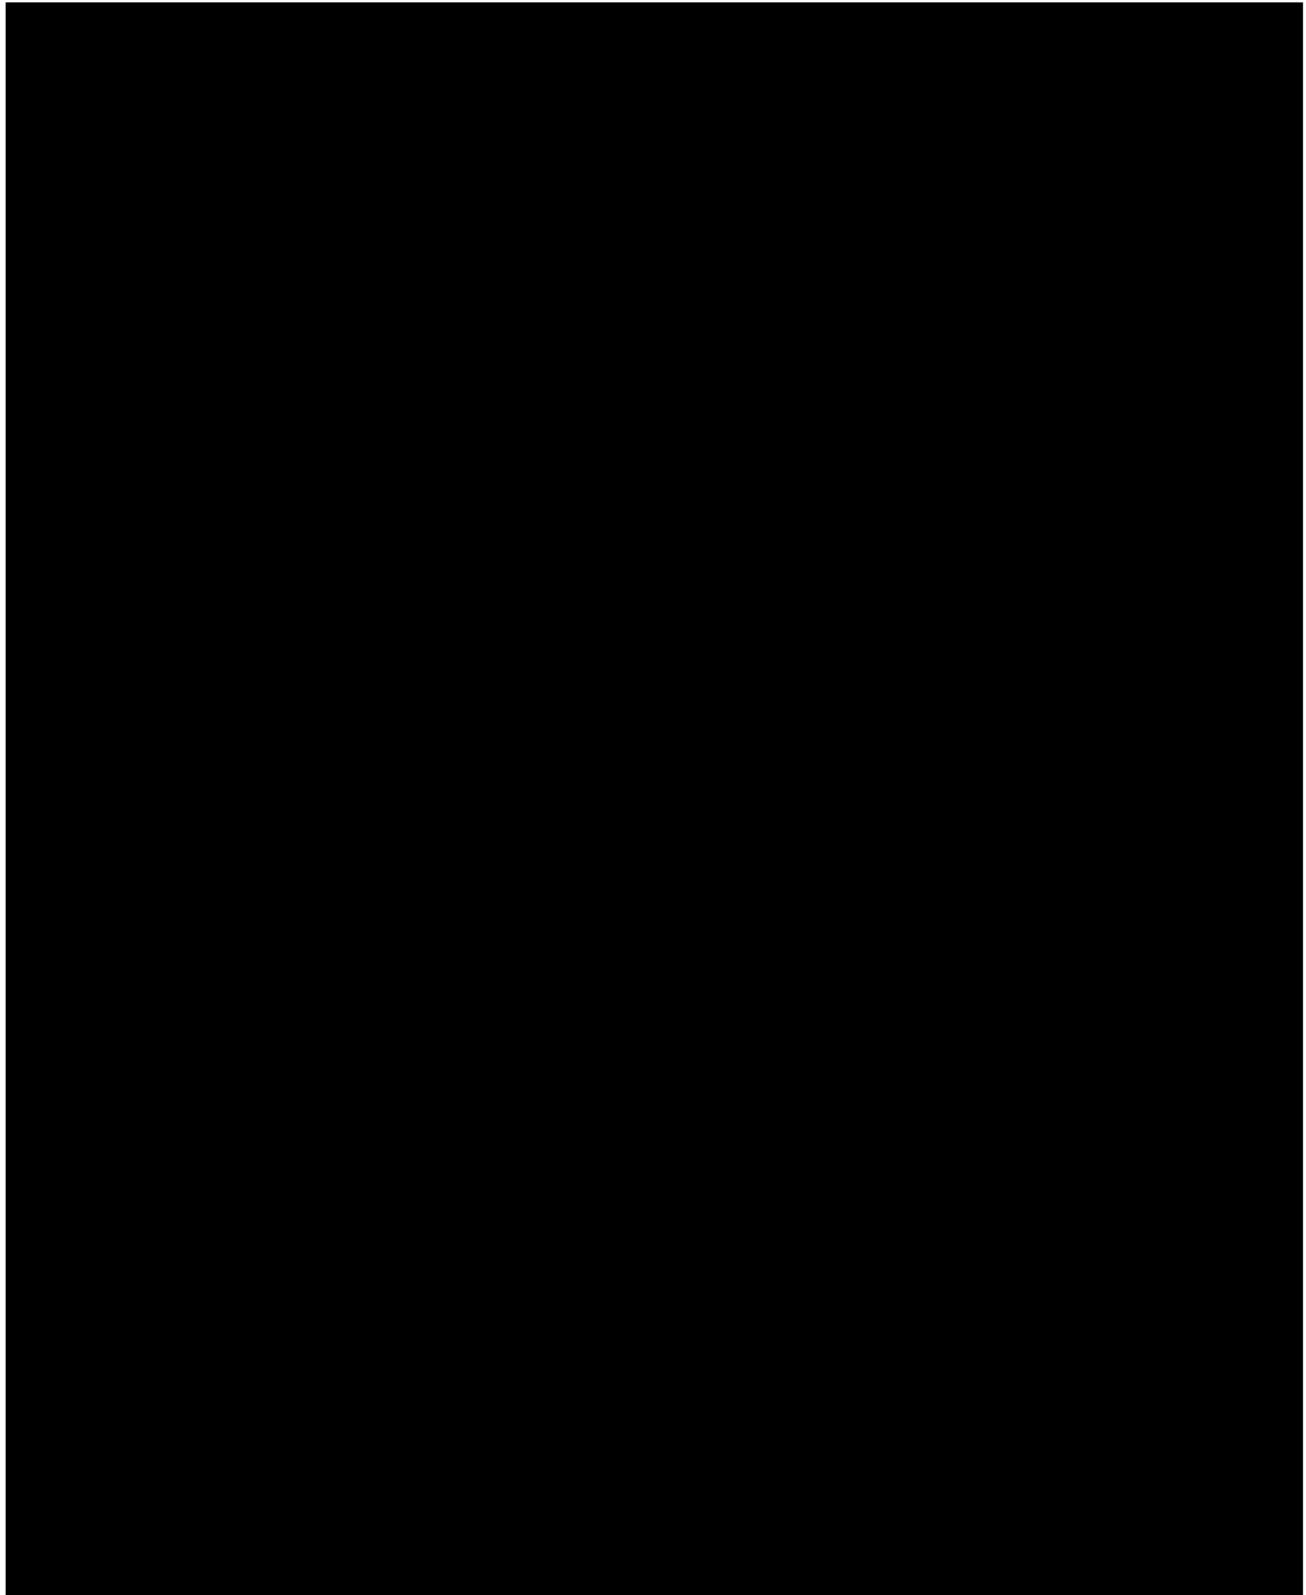

Figure 3 (Exhibit 2, Page 6)

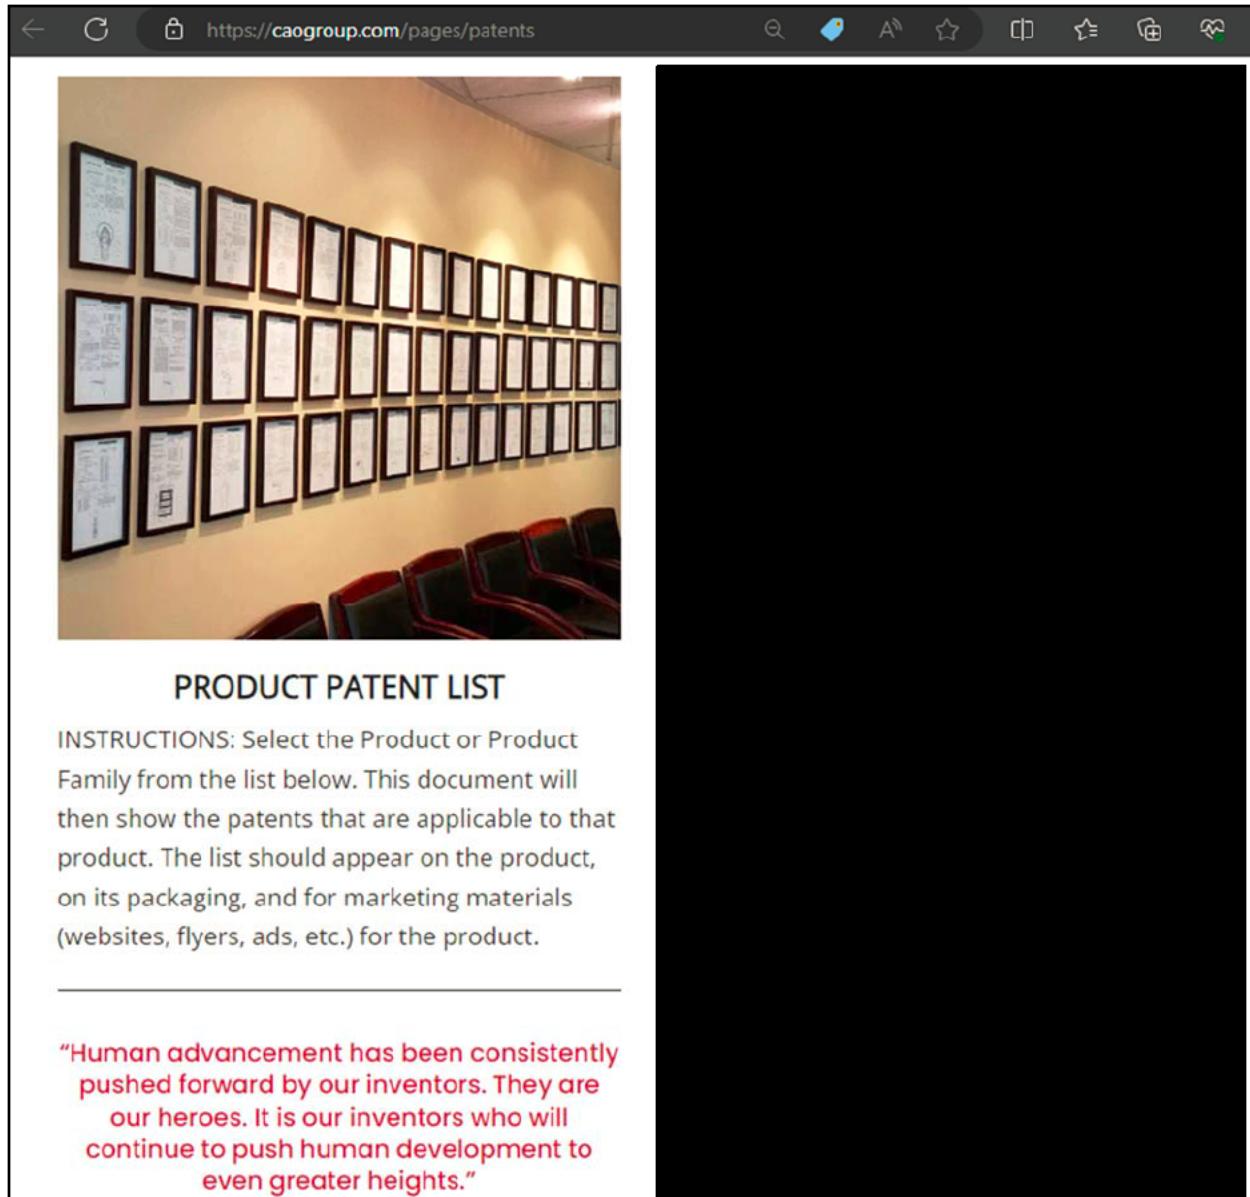

Figure 4, Plaintiff's Website (www.caogroup.com/patents)

19. On information and belief, Defendants, either individually or jointly, operate one or more e-commerce stores under the Seller Aliases listed in Schedule A attached hereto. Tactics used by Defendants to conceal their identities and the full scope of their operation make it virtually impossible for Plaintiff to learn Defendants' true identities and the exact interworking of their infringing network. If Defendants provide additional credible information regarding their identities, Plaintiff will take appropriate steps to amend the Complaint.

IV. DEFENDANTS' UNLAWFUL CONDUCT

20. The success of the Plaintiff's Products has resulted in significant infringement of Plaintiff's Patent. Because of this, Plaintiff has implemented an anti-infringement program that involves investigating suspicious websites and online marketplace listings identified in proactive Internet sweeps. Recently, Plaintiff has identified many fully interactive e-commerce stores offering Unauthorized Products on online marketplace platforms like Amazon.com, Inc. ("Amazon"), eBay, Inc. ("eBay"), and Walmart, Inc. ("Walmart"), including the e-commerce stores operating under the Seller Aliases. True and correct copies of the screenshot printouts showing the active e-commerce stores operating under the Seller Aliases reviewed are attached as Exhibit 3.

21. The Seller Aliases target consumers in this Judicial District and throughout the United States. According to a report prepared for The Buy Safe America Coalition, most counterfeit products now come through international mail and express courier services (as opposed to containers) due to increased sales from offshore online infringers. *The Counterfeit Silk Road: Impact of Counterfeit Consumer Products Smuggled Into the United States*, prepared by John Dunham & Associates (Exhibit 4).

22. Because counterfeit products sold by offshore online counterfeiters do not enter normal retail distribution channels, the U.S. economy lost an estimated 300,000 or more full-time jobs in the wholesale and retail sectors alone in 2020. *Id.* When accounting for lost jobs from suppliers that would serve these retail and wholesale establishments, and the lost jobs that would have been induced by employees re-spending their wages in the economy, the total economic impact resulting from the sale of counterfeit products was estimated to cost the United States economy over 650,000 full-time jobs that would have paid over \$33.6 billion in wages and benefits. *Id.* Additionally, it is estimated that the importation of counterfeit goods costs the United

States government nearly \$7.2 billion in personal and business tax revenues in the same period.

Id.

23. Online marketplace platforms like those used by Defendants do not adequately subject new sellers to verification and confirmation of their identities, allowing counterfeiters to “routinely use false or inaccurate names and addresses when registering with these e-commerce platforms.” **Exhibit 5**, Daniel C.K. Chow, *Alibaba, Amazon, and Counterfeiting in the Age of the Internet*, 40 NW. J. INT’L L. & BUS. 157, 186 (2020); *see also* report on “Combating Trafficking in Counterfeit and Pirated Goods” prepared by the U.S. Department of Homeland Security’s Office of Strategy, Policy, and Plans (Jan. 24, 2020), attached as **Exhibit 6**, and finding that on “at least some e-commerce platforms, little identifying information is necessary for a counterfeiter to begin selling” and that “[t]he ability to rapidly proliferate third-party online marketplaces greatly complicates enforcement efforts, especially for intellectual property rights holders.” Counterfeiters hedge against the risk of being caught and having their websites taken down from an e-commerce platform by establishing multiple virtual storefronts. **Exhibit 6** at p. 22. Since platforms generally do not require a seller on a third-party marketplace to identify the underlying business entity, counterfeiters can have many different profiles that can appear unrelated even though they are commonly owned and operated. **Exhibit 6** at p. 39. Further, “[e]-commerce platforms create bureaucratic or technical hurdles in helping brand owners to locate or identify sources of counterfeits and counterfeiters.” **Exhibit 5** at 186-187. Specifically, brand owners are forced to “suffer through a long and convoluted notice and takedown procedure only [for the counterfeit seller] to reappear under a new false name and address in short order.” *Id.* at p. 161.

24. The very same concerns regarding anonymity, multi-storefront infringers, and slow and ineffective notice and takedown marketplace procedures impact Plaintiff's enforcement efforts when trying to assert its own patent rights.

25. Defendants have targeted sales to Illinois residents by setting up and operating e-commerce stores that target United States consumers using one or more Seller Aliases, offer shipping to the United States, including Illinois, accept payment in U.S. dollars and, on information and belief, sell and/or offer for sale Unauthorized Products to residents of Illinois.

26. Defendants concurrently employ and benefit from similar advertising and marketing strategies. For example, Defendants facilitate sales by designing the e-commerce stores operating under the Seller Aliases so that they appear to unknowing consumers to be authorized online retailers, outlet stores, or wholesalers. E-commerce stores operating under the Seller Aliases appear sophisticated and accept payment in U.S. dollars in multiple ways, including via credit cards, Alipay, Amazon Pay, and/or PayPal. E-commerce stores operating under the Seller Aliases often include content and images that make it very difficult for consumers to distinguish their stores from an authorized retailer. Plaintiff has not licensed or authorized Defendants use of Plaintiff's Patents, and none of the Defendants are authorized retailers of Plaintiff's Products.

27. E-commerce store operators like Defendants commonly engage in fraudulent conduct when registering the Seller Aliases by providing false, misleading and/or incomplete information to e-commerce platforms to prevent discovery of their true identities and the scope of their e-commerce operation.

28. E-commerce store operators like Defendants regularly register or acquire new seller aliases for the purpose of offering for sale and selling Unauthorized Products. Such seller alias registration patterns are one of many common tactics used by e-commerce store operators

like Defendants to conceal their identities and the full scope and interworking of their infringing operation, and to avoid being shut down.

29. Even though Defendants operate under multiple fictitious aliases, the e-commerce stores operating under the Seller Aliases often share unique identifiers, such as templates with common design elements that intentionally omit contact information or other information for identifying Defendants or other Seller Aliases they operate or use. E-commerce stores operating under the Seller Aliases include other common features, such as registration patterns, accepted payment methods, check-out methods, keywords, advertising tactics, similarities in price and quantities, the same incorrect grammar and misspellings, and/or the use of the same text and images. Additionally, Unauthorized Products for sale by the Seller Aliases bear similar irregularities and indicia of being infringing to one another, suggesting that the Unauthorized Products were manufactured by and come from a common source and that Defendants are interrelated.

30. E-commerce store operators like Defendants communicate with each other through QQ.com chat rooms and utilize websites, like sellerdefense.cn, that provide tactics for operating multiple online marketplace accounts and evading detection by intellectual property owners. Websites like sellerdefense.cn also tip off e-commerce store operators like Defendants of new intellectual property infringement lawsuits filed by intellectual property owners, such as Plaintiff, and recommend that e-commerce operators cease their infringing activity, liquidate their associated financial accounts, and change the payment processors that they currently use to accept payments in their online stores.

31. Infringers such as Defendants typically operate under multiple seller aliases and payment accounts so that they can continue operation despite Plaintiff's enforcement. E-

commerce store operators like Defendants maintain offshore bank accounts and regularly move funds from their financial accounts to offshore accounts outside the jurisdiction of this Court to avoid payment of any monetary judgment awarded to plaintiffs.

32. Defendants are working in active concert to knowingly and willfully manufacture, import, distribute, offer for sale, and sell Unauthorized Products in the same transaction, occurrence, or series of transactions or occurrences. Defendants, without any authorization or license from Plaintiff have, jointly and severally, knowingly and willfully infringed Plaintiff's Patents in connection with the use and/or manufacturing of Unauthorized Products and distribution, offering for sale, and sale of Unauthorized Products into the United States and Illinois over the Internet.

33. Defendants' unauthorized use and/or manufacturing of the invention claimed in Plaintiff's Patents in connection with the distribution, offering for sale, and sale of Unauthorized Products, including the sale of Unauthorized Products into the United States, including Illinois, is likely to cause, and has caused, loss of market share and erosion of Plaintiff's patent rights is irreparably harming Plaintiff.

COUNT I
PATENT INFRINGEMENT (15 U.S.C. § 271) – THE █ PATENT

34. Plaintiff hereby re-alleges and incorporates by reference the allegations set forth in the preceding paragraphs.

35. As shown, Defendants are working in active concert to knowingly and willfully manufacture, import, distribute, offer for sale, and sell infringing products in the same transaction, occurrence, or series of transactions or occurrences. Defendants, without any authorization or license from Plaintiff, have jointly and severally, knowingly and willfully offered for sale, sold,

and/or imported into the United States for subsequent resale or use the same product that infringes directly and/or indirectly the [REDACTED] Patent.

36. As shown in the example claim chart attached as Exhibit 7, the products being sold by Defendants infringes at least Claim 1 of the [REDACTED] Patent. The claim chart of Exhibit 7 is illustrative only and is made without the benefit of discovery or claim construction, and Plaintiff reserves the right to modify its infringement theory as appropriate as the case proceeds. Although the claim chart only includes Claim 1, Plaintiff alleges that Defendants have infringed each and every claim of the [REDACTED] Patent.

37. Specifically, Defendants have infringed and continue to infringe each and every claim of the [REDACTED] Patent by making, using, importing, selling, and/or offering to sell their infringing products in the United States without authorization or license from Plaintiff.

38. Defendants have profited by their infringement of the [REDACTED] Patent, and Plaintiff has suffered actual harm as a result of Defendants' infringement.

39. As a direct and proximate result of Defendants' infringement, Plaintiff has suffered irreparable harm and monetary and other damages in an amount to be determined. Defendants' infringement of the [REDACTED] Patent in connection with the offering to sell, selling, or importing of products that infringe the [REDACTED] Patent, including such acts into the State of Illinois, is irreparably harming Plaintiff. Defendants' wrongful conduct has caused Plaintiff to suffer irreparable harm resulting from the loss of its lawful patent rights to exclude others from making, using, selling, offering for sale, and importing the patented inventions as well as the lost sales and loss of repeat sales stemming from the infringing acts.

40. Defendants' infringement has been and continues to be willful. Accordingly, Plaintiff is entitled to treble damages under 35 U.S.C. § 284 and this is an exceptional case under 35 U.S.C. § 285.

41. Plaintiff is entitled to injunctive relief pursuant to 35 U.S.C. § 283. Unless Defendants are preliminarily and permanently enjoined by this Court from continuing their infringement of the [REDACTED] Patent, Plaintiff will continue to suffer additional irreparable harm, including loss of market share and erosion of patent rights.

42. Plaintiff is entitled to recover damages adequate to compensate for the infringement, pursuant to 35 U.S.C. § 284, in no event less than a reasonable royalty.

The claim chart of Exhibit 7 is illustrative only and is made without the benefit of discovery or claim construction, and Plaintiff reserves the right to modify its infringement theory as appropriate as the case proceeds. Although

the claim chart only includes Claim 1, Plaintiff alleges that Defendants have infringed each and every claim of the [REDACTED] Patent.

46. Specifically, Defendants have infringed and continue to infringe each and every claim of the [REDACTED] Patent by making, using, importing, selling, and/or offering to sell their infringing products in the United States without authorization or license from Plaintiff.

47. Defendants have profited by their infringement of the [REDACTED] Patent, and Plaintiff has suffered actual harm as a result of Defendants' infringement.

48. As a direct and proximate result of Defendants' infringement, Plaintiff has suffered irreparable harm and monetary and other damages in an amount to be determined. Defendants' infringement of the [REDACTED] Patent in connection with the offering to sell, selling, or importing of products that infringe the [REDACTED] Patent, including such acts into the State of Illinois, is irreparably harming Plaintiff. Defendants' wrongful conduct has caused Plaintiff to suffer irreparable harm resulting from the loss of its lawful patent rights to exclude others from making, using, selling, offering for sale, and importing the patented inventions as well as the lost sales and loss of repeat sales stemming from the infringing acts.

56. Defendants have profited by their infringement of the █ Patent, and Plaintiff has suffered actual harm as a result of Defendants' infringement.

57. As a direct and proximate result of Defendants' infringement, Plaintiff has suffered irreparable harm and monetary and other damages in an amount to be determined. Defendants' infringement of the [REDACTED] Patent in connection with the offering to sell, selling, or importing of products that infringe the [REDACTED] Patent, including such acts into the State of Illinois, is irreparably harming Plaintiff. Defendants' wrongful conduct has caused Plaintiff to suffer irreparable harm resulting from the loss of its lawful patent rights to exclude others from making, using, selling, offering for sale, and importing the patented inventions as well as the lost sales and loss of repeat sales stemming from the infringing acts.

62. Plaintiff's spent substantial time, money, and resources in development of the invention embodied in Plaintiff's Patents.

63. Plaintiff's Patents consist of a unique [REDACTED] which greatly improves upon [REDACTED] technology.

64. Plaintiff also spent substantial time, money, and resources in the development of Plaintiff's Products, including selling Plaintiff's Products directly to consumers and through a distributor.

65. Defendants traded upon Plaintiff's good will, reputation, research, and development by selling products which infringed upon Plaintiff's Patents.

66. Defendants, by selling Unauthorized Products, eroded Plaintiff's market share in the dental and oral hygiene markets.

67. Unauthorized Products include the unique [REDACTED] components disclosed in Plaintiff's Patents.

68. Defendants knew or should have known that the Unauthorized Products they were selling infringed upon Plaintiff's Patents and by selling those products they were eroding Plaintiff's market share and trading upon its good will, reputation, research, and development.

69. Defendants, by offering for sale and selling Unauthorized Products, improved their own good will and market share by trading upon the good will, reputation, research, and development of Plaintiff.

70. On information and belief, Defendants have sold Unauthorized Products, further eroding Plaintiff's market share and trading upon its good will, reputation, research, and development of Plaintiff.

71. Plaintiff has never received any relief for the erosion to its market share or any compensation from Defendants for their use of Plaintiff's good will, reputation, research, and development.

PRAYER FOR RELIEF

WHEREFORE, Plaintiff prays for judgment against Defendants as follows:

- 1) That Defendants, their affiliates, officers, agents, servants, employees, attorneys, confederates, and all persons acting for, with, by, through, under, or in active concert with them be temporarily, preliminarily, and permanently enjoined and restrained from:
